

KANSAS GEOLOGICAL SURVEY - KGSR SAMPLE PRESERVATION ACTIVITIES - 2024

Oil and gas companies provided the Survey with geologic samples from 302 oil and gas wells.

- ❖ Samples from 267 wells were preserved at an average rate of nearly 929 sample feet per hour for a total of 351.5 processing hours.
- ❖ 45,000 sample envelopes and 2,699 sample boxes were used to preserve and restore well samples.
- ❖ Samples from 35 wells were not geologically significant to the oil or gas operator or the sample collection, so they were discarded.
- ❖ Staff preserved 366,500 sample feet, roughly 69.4 miles.
- ❖ Funded 1,817 hours to restore samples for wells and resolved 17,491 sample preservation issues, including the recovery of missing samples for 186 wells.

Distribution of oil or gas well samples preserved in 2024, by total sample depth (December 31, 2024)
